

8-29-44

Dear Mom:

This ink is more like glue than any thing else I can think of but its all I have so it will have to do.

You have been having it pretty rough these last few days you better start getting back in shape if you want to have a good time when you come to Ohio. This course isn't over until the 15th of next month but if you put in for ~~see~~ pulman reservations now you will have a better chance of getting them.

You could figure on coming on the 20th and staying about 10 days then you would have your reservations both ways.

I have one other thing, I wish you could get someone to come with you because I will probably have to be at the field most of the time, say Anna or Aunt Bessie. It gets pretty boring in a big town alone.

I got Anna's letter and the book she sent. You can tell her that Brennan hasn't changed a bit as a matter of fact I think he makes a little more noise than he used to. He'll probably be at Lockburn.

END

Love,
Charlie
